Autodesk® Training

AutoCAD Essentials for New Users

The AutoCAD Essentials training course will teach new users how to effectively get started with AutoCAD. After completing this course, you will be able to navigate the interface and perform basic commands, create basic drawings, manipulate objects, organize drawings and inquiry commands, alter objects, work with layouts, annotate drawings, work with dimensioning, hatching objects, work with reusable content, create additional drawings objects, plot your drawings, and create drawing templates. This course is also good for experienced users to freshen up on their AutoCAD skills. Users will be presented with detailed lessons, procedures and projects to practice what you have learned.

Intended Audience: New users who need to know essential commands necessary for professional 2D drawing, design, and drafting using AutoCAD.

Course Prerequisites: No previous CAD experience required, but drafting and design experience is a plus.

Autodesk Custom Training

Custom Training \$125 per hour
4 hour minimum
(full day 8:30am to 4:30pm available for up to 6 students)

If your organization has special training needs, we can customize a class just for you. We'll work with you to understand exactly what you need to optimize your training investment.

Training is available at MCAM NW or we can travel to your location. If you do not have a classroom set up, we have 6 rental laptops available for \$50 each per day.

Intended Audience: This training is intended for users who need training customized to their specific workflow or a refresher class.

You should expect to spend some time on the phone with our instructor going over what material you wish to cover in the class.
